## Meaning of accreditation UNI CEI EN ISO / IEC 17025:2018 laboratory

**The Laboratory Coronati Consulting has achieved accreditation in accordance with UNI CEI EN ISO / IEC 17025: 2018 with the number 01143 by ACCREDIA.** The standard is international and recognized worldwide. The accredited tests are listed on the site [www.accredia.it](http://www.accredia.it).

ACCREDIA evaluates the technical expertise and professional competence of operators of Testing Laboratories verifying compliance with mandatory rules and voluntary standards, to ensure the value and credibility of certification, inspections, tests and calibrations. Accreditation ensures that the test reports and inspection and certification (system, product and personnel) with the mark ACCREDIA are issued in compliance with the most stringent international requirements for conformity assessment, and behind a constant and rigorous surveillance of the behavior of the test laboratories.

The accreditation demonstrates the level of quality of work of a laboratory test, verifying the compliance of its management system and its internationally recognized expertise in regulatory requirements, and with the mandatory laws. **Only Accredited testing laboratories are able to provide the market with declarations of conformity reliable, credible and internationally accepted.** ACCREDIA fact measures and finds their expertise, applying the most rigorous testing standards of their behavior and continuously monitoring their performance over time, and adheres to international agreements of mutual recognition.

ACCREDIA is working, through the implementation of its control mechanisms, so that the laboratory meets certain basic principles, which are the basis of the credibility of the certificates, and certificates of compliance in general, in the eyes of the user.

### ACCREDITATION IS THEREFORE GUARANTEE:

- Impartiality: representation of all interested parties within the Body / Laboratory.
- Independence: auditors and committees responsible for granting certification / guarantee ratio has no conflict of interest with the organization to be certified.
- Fairness: European standards prohibit the provision of advice directly or through affiliates.
- Competence: the accreditation demonstrates first that the staff of the activity occurs both culturally, technically and professionally qualified.

Use of the ACCREDIA Mark on Test Reports does not imply that ACCREDIA accepts responsibility for the result of the test, or for any opinion or interpretation that may derive from it, or that ACCREDIA approves a test sample or product.

**Choose a laboratory accredited means making sure that the supplier has fulfilled a whole series of obligations and has put together all the resources to be able to market a service that offers what it actually says.** This is particularly significant when trying the quality of services, but especially when they have a direct impact on the health and safety.
